

LATITUDE

3340/3440/3540

Modern design with up-leveled essential productivity features for every business.

LATITUDE

3340/3440/3540

Modern design with up-leveled essential productivity features for every business.

A broad range of essential features built for any business and any budget, and perfectly suited for the mobile professional who works from anywhere.

Ideal for task-oriented professionals, educators, and students performing advanced curriculum who are driven to produce results and strive for efficiency. They need enterprise-level security, essential intelligence and collaboration features that help them stay productive.

World's Lightest New 13" Essential Business Laptop:¹⁴
Starts at 2.76lbs/1.25kg

Upgraded Audio
Experience improved audio quality for better collaboration on 14"/15".

Optional FHD IR Camera
Collaborate more confidently and sign-in securely with Windows Hello.

All new modern, design
Re-designed chassis featuring a new color and texture on 14"/15".

Optimal versatility
13" 2-in-1 features an optional Active Touch panel with pen support.

New enhanced keyboard
Improved backlit* keyboard with durable, laser-etched key prints, and longer key travel for increased comfort.

Upgraded clickpad
Work comfortably on the new clickpad featuring improved feel for better productivity.

Intelligent Audio with Neural Noise Cancellation
Collaborate confidently with AI-based background noise elimination.

Sustainable design
Our most sustainable Latitude 3000 series yet, featuring components made with post-consumer recycled plastics.

ExpressConnect
Utilize 2 or more networks at once with ExpressConnect, the world's 1st simultaneous multi-network connection for faster data and video downloads.

Privacy Control
could you have the camera shutter section point to the camera on the device too? We can connect them.

Up-leveled Performance
13th Generation Intel® Core™ Processors up to i7. Offering a vast array of memory options with the new, fast LPDDR5 memory on 13", DDR4 memory on 14"/15", and discrete graphics card options on 14"/15".

4G, Wi-Fi 6 & Wi-Fi 6E²⁰ connections
Wi-Fi 6E allows 7 more channels for more bandwidth which provides faster, smoother Wi-Fi, especially in high-density areas while 4G LTE options keep you connected wherever you work.

ExpressResponse
Launch applications faster and improve overall app performance.

Outstanding run-time plus faster charging with ExpressCharge
Multiple battery options up to 54Whr, and rapid reload up to 80% in 75 minutes.

Uses 100% recycled and renewable packaging²¹, including multipack options.

*Backlit keyboard is optional.

3340/3440/3540

Dell Optimizer

We make it intelligent. You make it yours.

In a work-from-anywhere world, powering the world's most intelligent commercial PCs¹⁸ is not enough, Dell Optimizer is extending personalized intelligence to the rest of the Dell ecosystem.

Dell Optimizer lets you accomplish anything with built-in intelligence that learns and adapts to the way you work.

Elevate everyday work with personalized performance extending from your Latitude to the devices within your workspace.

An intelligent ecosystem

Enjoy easy pairing and management of your Dell monitors and accessories with the **integration of Dell Display Manager and Dell Peripheral Manager.**

Unmatched connectivity

ExpressConnect provides the world's first simultaneous multinet network connection¹⁹ that joins the best network available.

Improved app performance

ExpressResponse analyzes how you use your preferred apps to boost performance.

Up level audio

Intelligent Audio delivers sound and mic enhancements reducing background noise using neural noise cancellation and voice isolation technology.

Extended power

ExpressCharge analyzes your power usage habits to improve PC battery utilization and extends run times by charging your system faster when you need a boost in power.

With Dell Optimizer, optimization and data collection follow a stringent process to ensure your privacy and security.

[Click here to learn more about Dell Optimizer.](#)

3340/3440/3540

Make yourself more resilient to cyberattacks with Dell Trusted Devices.

Attacks are inevitable. In fact, 69% of organizations report a cyber-attack due to a poorly managed internet-facing asset in the prior 12 months.* Dell Technologies understands that today's security challenges include managing an evolving threat landscape with a modern work environment in mind. With Dell commercial devices, catch and repel malicious activity before it compromises your system. Latitude, one of the industry's most secure commercial PCs**, offers layers of security features to keep you protected and give you visibility to threats for swift action.

Secure anywhere-work with hardware and firmware defenses built for our hyper-distributed world.

Stay protected from evolving threats

Our unique BIOS and firmware verification provides greater security than other PCs. Assess a corrupt BIOS, repair it and gain insights that reduce exposure to future threats.

Spot ticking timebombs

Indicators of Attack, an early-alert feature offered only by Dell, scans for behavior-based threats before they can do damage.

Detect chassis tampering

Detect unauthorized access, e.g., malicious implanted hardware or software, data/component theft inside system chassis.

Secure end user credentials

SafelD, a dedicated FIPS Level 2 certified security chip, keeps user credentials hidden from malware.

Be safe from first boot

Rigorous, state-of-the-art supply chain controls reduce the risk of product tampering. Optional additions like the Dell-unique Secured Component Verification provide additional assurance of device integrity.

Protect data everywhere

Stay protected against advanced threats with optional software-based protections from our ecosystem of best-of-breed partners (CrowdStrike, VMware Carbon Black, Secureworks, Netskope and Absolute).

*ESG Survey: Security, Hygiene and Posture Management, Jan. 2022

**Dell internal analysis, September 2022. Not all features available with all PCs. Additional purchase required for some features
